Technologies transforming government

Big Data and Open Data

Manage data wisely to drive productivity, increase mobility, and innovate new digital services across and between multiple departments and agencies and to a broader set of citizens and stakeholders

Security

Achieve a balance of security and citizen empowerment, with effective security controls across identity, device, data and apps, and infrastructure. Protect data against unauthorized access, detect attacks and breaches, and respond and adapt to prevent it from happening again

Analytics, Machine Learning, Artificial Intelligence

Bring greater wisdom into analysis and service delivery with on-demand cloud-based compute power. Enable a digitized redesign of existing processes to deliver new, more flexible services

Internet of Things

Connect infrastructures to make emergency systems more efficient, or reduce service response times across devices, cloud, analytics, and backend systems

"To be efficient and effective in today's complex, interlinked and fast-changing environment, governments need to redesign their structures and processes to capitalize on a new set of actors and tools,"

World Economic Forum
Future of Government Report

Modern government challenges

Changes in services, policy, and citizen requests require more responsive agencies

Large, expanding volume of data increasing complexity and storage costs

Unstructured data limits ability to analyze and take action

Data security, privacy and regulatory requirements are of paramount importance

Empower every person and
every organization on the planet
to achieve more

Microsoft AI

Amplifying human ingenuity
with intelligent technology

Our values and principles

Enable people

Inclusive design

Build trust in technology

Our strategy is to build best-in-class **platforms** and productivity services for an **intelligent cloud and an intelligent edge** infused with **artificial intelligence** ("AI").

AI maturity is critical to success

The AI transformation

Digital Agents

Transform your
engagement with citizens
and employees

Intelligent Apps

Leverage AI to create the
future business applications

Business processes

Transform critical business
processes with AI

Digital transformation is essential to sustaining a competitive advantage in Government

Meet your mission

Protect your sensitive information

ENGAGE YOUR CITIZENS

Through connected mobile services to increase satisfaction and participation

EMPOWER YOUR EMPLOYEES

to do their best work by leveraging the power of mobility

OPTIMIZE GOVERNMENT OPERATIONS

to ensure cost and operating efficiencies with trusted cloud services

TRANSFORM YOUR SERVICES

and better utilize data to produce actionable analysis and enable better decision making

Digital transformation & AI

Engage your
citizens/patients

Conversational agents

Customized experiences

Customer analytics

Digital transformation & AI

Enable your employees

Employee productivity

Business data differentiation

Organizational knowledge

Digital transformation & AI

Optimize your operations

Intelligent predictions

Operational efficiency

Deep insights

Digital transformation & AI

Transform your services

Product innovation

Differentiated experiences

New scenarios

“Our customers and society expect us to maximize the value of technology while also preserving the values that are timeless.”
